

Website Pricing

Consultation/Concept Design - \$50 - This is the beginning stage where we decide the concept of the site and provide a rough draft of the website in order to visualize the idea and realize any critiques that need to be corrected.

Website Construction/Design - \$300 - This is the actual creation of the website and any links or social media pages needed to be created or connected in the process. This is the actual construction of the site.

Website Finalization and Maintenance - \$150 - This is the presentation of the finalized website and launch. Any changes needed will be corrected here and then the site will be launched with SEO (Search Engine Optimization) internet presence and optional light social media advertising. This also covers publishing and domain fees and includes **30 days** of website maintenance and content management (content provided by the owner). It is **\$50 every month** after that to retain website maintenance and content management.

Website construction consists of four (4) pages including Home page. Additional pages \$100 each with maintenance included.
